

OFFICE OF THE DIRECTOR

DATE:

July 6, 2024

TO:

The Honorable Josh Shapiro
Governor
Commonwealth of Pennsylvania

FROM:

Randy Padfield
Director, PA Emergency Management Agency

TIME PERIOD:

This report covers the period from 0600 hours, July 5, 2024, through 0600 hours, July 6, 2024.

STATUS REPORT: (as of 0600 hours)

THREAT STATUS:

National Terrorism Advisory System: There are no current advisories.

Commonwealth Response Coordination Center (CRCC) Status: Normal Operations

County EOC Activations: None

Municipal EOC Activations: None

CAPABILITIES STATUS:

PA All-Hazards Type-3 Incident Management / Team – Mission Capable

PA-Task Force 1 (PA-TF1) – Two members will deploy to College Station, Texas on 7/7/24.

INFRASTRUCTURE STATUS:

Major Road Closures:	I-81 southbound at Exit 10 (PA-914)
Power Outage Reports:	As of 0600 hours, 2,037 customers
Telephone Outage Reports:	None

SIGNIFICANT EVENTS:

OPEN:

FATAL MOTORCYCLE CRASH - Franklin County, 7/6/24 – At 0132 hours, a fatal motorcycle crash closed I-81 southbound at mile marker 6.7 in Antrim Township. A detour was set up at Exit 10 (PA-914). Fire police were able to turn around the trapped queue. The roadway remains closed for reconstruction and clean-up.

RESIDENTIAL STRUCTURE FIRE - Bradford County, 7/5/24 – Emergency units responded to a residential structure fire in the 400 block of Sugar Creek Road in North Towanda Township. One victim was initially entrapped and self-extricated by jumping from a second-floor window. The person was transported to a local hospital. Two additional occupants and two dogs escaped without injury. An Athens Borough firefighter was struck in the head and felt dazed and confused. He was transported by ambulance to Guthrie Robert Packer Hospital Towanda Campus where he was treated and released. The fire reached a third alarm for engines and personnel.

ADVERSE WEATHER – SEVERE STORMS – Statewide, 6/26/24 - Severe thunderstorms stretched across the Commonwealth throughout the afternoon and evening hours, bringing high winds and heavy rainfall, and prompting numerous Severe Thunderstorm, Tornado, and Flash Flood Warnings. There were many reports of trees and wires down, flooded roadways, as well as multiple road closures throughout the state. Westmoreland and Northampton Counties activated their emergency operations centers (EOCs), along with several municipal EOCs, to support the response efforts. All EOCs in Westmoreland stood down overnight. Multiple public safety radio system tower sites in Westmoreland and Northampton Counties are running on generator power due to commercial power loss. Radio coverage has not been affected. Lehigh Valley Hospital Schuylkill East Campus was without power beginning at 1800 hours, causing their emergency room to go on divert, and threatening a loss of pharmacy supplies. The Public Utility Commission (PUC) was contacted to assist in getting power restored, and it has since been restored. Power outages across the state peaked at over 147,000 but have been steadily declining as crews restore power. Building damage has also been reported across the Commonwealth to homes and farms, as well as damage to a PennDOT shed on Sandy Hill Road in Westmoreland County. Personnel from the National Weather Service (NWS) will be inspecting storm damage to see if tornadoes were the cause in various counties. On 6/27/24, Northampton County reported that commercial power was restored to their Fox Gap tower site and the EOC returned to normal operations. Many roads across the Commonwealth that were closed have reopened, but some remain closed for clean-up. Staff from National Weather Service (NWS) offices were out across the state conducting damage surveys. Preliminary reports were that a total of four tornadoes and two downburst events were the cause of the damage across the state. NWS Pittsburgh reported a weak EF-0 tornado northwest of Blairsville in Indiana County; an EF-1 tornado which formed just west of Manor Valley Golf Course in Westmoreland County which remained on the ground for 11 miles, lifting just south of New Alexandria; an EF-1 tornado which formed near North Versailles in Allegheny County, and travelled to Bushy Run Battlefield State Park; and an EF-1 tornado which formed southwest of Imperial-Enlow in Allegheny County and travelled almost seven miles, lifting in Oakdale, Allegheny County. Downbursts in the Lake Harmony area of Carbon County and an area between Fowlersville Road and Briar Creek in Columbia County caused trees to snap and uproot, and damaged multiple buildings. On 6/28/24, NWS Pittsburgh upgraded the Manor Valley Golf Course tornado to an EF-2 and added an EF-0 tornado near Dairy Farm Road, Perry Township, Greene County, bringing the total to five tornadoes in western Pennsylvania. 6/29/24, all federal and state roadways have reopened except for US-11 in Luzerne County and PA-191 in Monroe County. The Fox Gap Tower site in Upper Mount Bethel Township, Northampton County, has continued to experience issues and has been without power since 2000 hours on 6/29/24. 6/30/29, all lanes of PA-191 in Monroe County and US-11 in Luzerne County are now open. 7/2/24 – NWS Pittsburgh has issued a Public Information Statement confirming an EF-1 tornado occurred in Allegheny County starting in

Wilmerding and ending in Jeanette, Westmoreland County, bringing the total to six in western Pennsylvania (one EF-2, three EF-1s, and two EF-0s).

A/C ISSUES AT SKILLED NURSING CENTER – Berks County, 6/19/24 - The West Reading Skilled Nursing and Rehab Center at 425 Buttonwood Street in West Reading Borough is having internal issues causing intermittent A/C failure. The facility has made purchases and rentals to meet their needs and does not require any outside resources. There have been no evacuations. The Coalition Manager for the Central Regional Healthcare Coalition advised that they were moving assets to support the AC needs at the facility.

WATER LEAK – Lancaster County, 6/1/24 - A 3/4" cap on a water line broke on the 3rd floor of the Lancaster County Government Building, 150 North Queen Street in the City of Lancaster. The leak caused water damage to the 3rd floor as well as the floors below. A damage assessment was conducted by the Emergency Management staff, the County Facilities Director, and Complete Restoration. On 6/2/24, the County Commissioners decided to close the government center on Monday, 6/3/24, while evaluation of water damage in the building continues. The center reopened to the public on 6/10/24, but many of the offices are out of their normal locations and the facility is still in recovery mode.

ROAD CLOSURE DUE TO SUBSIDENCE – Cambria County, 4/25/24 - An engineer for West Taylor Township contacted the county EMA about subsidence of the roadway in the 100 block of Batzel Road. Emergency management staff responded and noted considerable subsidence of the roadway. This is reportedly an ongoing issue where the township lays down new asphalt as a temporary measure. Electrical service and a cable line are pulled tight between the nearby residence and a utility pole which seems to have shifted. There is also considerable twisting of the guardrail. Cement barriers will be requested to close the roadway. There are no residents that are currently affected by this closure. There will be a minor detour for emergency vehicles. Engineers are working with the township to develop a long-term repair plan.

TRAIN DERAILMENT – Columbiana County, Ohio, 2/3/23 - On 2/3/23 at 2130 hours, mutual aid crews from Beaver County responded to a train derailment near Taggart Street, East Palestine, Ohio. Approximately 53 railcars derailed and some of them caught fire. There were five cars of vinyl chloride within the wreckage. Around 2330 hours a call was received from an Environmental Protection Agency (EPA) Region 3 representative, and they advised there was no current impact to PA. EPA Region 5 and Ohio EPA set up air monitoring equipment and they also used handheld monitors, and nothing was detected. Members of the PA Department of Environmental Protection (DEP) Southwest Regional Office were also onsite monitoring through daylight and maintained a presence until there was no threat to PA. An IMAAC model showed a potential impact to residences in PA if harmful chemicals were released from any of the derailed cars. Beaver County EMA Coordinator reported that they followed Columbiana County, Ohio's lead and a message was sent out to 16 registered users in the one-mile zone to shelter in place. Ohio later changed their message to an evacuation, but Beaver County remained as a shelter-in-place due to no residences being impacted. Shell Monaca was provided green foam to help extinguish the fires. Clean-up contractors from SPSI and Hepaco responded to the scene. The shelter-in-place order remained in effect for Beaver County. Beaver County sent tankers from nine departments and an engine to assist in drafting from a lake in town once the railroad deemed it was safe. As of 2/5/23, Columbiana County, Ohio EMA recommended a one-mile evacuation around the incident due to one of the vinyl chloride rail cars showing a temperature increase. This included the 10 homes that were sheltering in place within Beaver County. On 2/6/23, all 20 homes in the PA evacuation zone were evacuated. Beaver County Animal Response Team (CART) requested assistance for trailers from Washington and Westmoreland counties to assist with the evacuation of farm

animals from Kindred Spirits Rescue Farm. The recommended evacuation zone remained at one mile. The Pennsylvania Emergency Management Agency (PEMA) ordered a partial activation of the Commonwealth Response Coordination Center (CRCC) at 1100 hours and Beaver County Emergency Operations Center (EOC) partially activated. A planned controlled detonation was performed to empty five rail cars into a trench to burn off the vinyl chloride. Norfolk Southern established a Family Assistance Center for affected residents in New Waterford, Ohio; Beaver Valley Intermediate School remained open. On 2/7/23, the plume from the controlled detonation on 2/6/23 dissipated with no significant air detection identified by EPA Region 3 or PA DEP. Norfolk Southern conducted wrecking operations of damaged cars at the sight. Normal readings were reported by the Ohio Civil Support Team after monitoring the inside of three residences. The Ohio Department of Natural Resources reported approximately 1,800 fish killed within the streams and creeks that were affected. Air monitoring continued and there were no contaminants or concerns. The PEMA CRCC demobilized on 2/8/23 at 1600 hours. All roads that were closed in PA, including PA-51, were reopened. The Beaver County EOC deactivated at 1200 hours on 2/10/23. A public inquiry line remains operational. On 2/14/23, the EPA identified three other chemicals that were part of the train. They continued to monitor the air and waterways for contamination. On 2/23/23, PEMA, in conjunction with the Departments of Health (DOH) and Environmental Protection, launched a website to provide information to Commonwealth residents about the derailment. On 2/28/23, the Pennsylvania Department of Health opened a Health Resource Center in Darlington Township, Beaver County for residents of Beaver and Lawrence counties who have health concerns following the Norfolk Southern train derailment. On 3/1/23, door-to-door surveys were conducted for 22 households within the 1-mile evacuation zone. Additional discussion led to a decision to do CDC outreach (door knocking) within the 2-mile radius in Pennsylvania, which began on 3/2/23. Approximately 450 healthcare providers participated in three webinars conducted on 2/28/23 and 3/1/23 for major medical providers in the Southwestern Region. Sample testing and review on Norfolk Southern soil sampling continued by Commonwealth agencies. The EPA Region 3 Director accompanied by staff, Pennsylvania Senator Casey, and Representative Deluzio toured the site on 3/2/23. On Monday, 3/6/23, Pennsylvania Governor Shapiro announced that Norfolk Southern has agreed to pay Pennsylvania millions of dollars for the impacts of the train derailment. Norfolk Southern agreed to reimburse local fire departments to replace contaminated or damaged equipment used during the response to the derailment, to provide funds for a Community Relief Fund to be run by officials in Beaver and Lawrence counties, and to reimburse state agencies (DEP, DOH, and PEMA) for associated costs. Norfolk Southern collected soil samples with representatives from the EPA present. Removal of the train tracks closest of Pennsylvania began over the weekend and was completed 3/5/23. Excavation of the contaminated soil began, and odors were expected to be released into the air. Air monitoring was increased during the process which is expected to take at least three to four days depending on the depth of the contaminants in the soil. The EPA requested Norfolk Southern to provide additional financial assistance to residents within one mile of the derailment site if they are impacted by the odors released during the excavation of the soil which the company has agreed too. Pennsylvania state agencies supported another East Palestine Community Resource Fair this Thursday at the East Palestine High School. Beaver County coordinated a separate Community Resource Fair for Pennsylvania residents for the following week which the state agencies supported. U.S. Senator Bob Casey completed a quick tour and talk at the Health Resource Center Monday morning. A Norfolk Southern contracted company sampled 16 private wells in Pennsylvania. DEP sampled 27 private wells in the area as of Monday with more sampling expected 3/7/23. On 3/8/23 DHS coordinated a call with Beaver and Lawrence counties about the possibility of applying for a Substance Abuse and Mental Health Services Administration (SAMHSA) Emergency Response Grant (SERG) to provide funding for additional behavioral health services that may be required following this incident. DOH and PEMA also participated in the call. Excavation work at the site was temporarily stopped due

to elevated readings and release of odor. The excavation of the soil at the south tracks of the derailment site was mostly complete. As of 3/13/23, Norfolk Southern was waiting on soil samples to come back from the elevated spots that were detected. Due to contaminants being detected during the initial excavation at two to four inches, additional sampling was done at 12 to 15 inches to make sure all contaminated soil is removed. Soil excavation for the north track was still in the planning process. As of 3/16/23, the excavation of the soil at the south tracks of the derailment site was completed. The Health Resource Center (HRC) completed its final daily operational period at 1400, 3/16/23. The HRC moved to operations on Thursdays beginning 3/23/23. Excavation of the north track and removal of contaminated soil and water continued. OSHA joined the on-site operations to provide support to the safety officer and ensure that the community and personnel are safe during operations. EPA Region 5 conducted an information session focused on air quality and air monitoring on 4/27/23. EPA Region 5 conducted an information session focused on surface water on Thursday, May 11, at the Way Station and First United Presbyterian Church in East Palestine. As of 6/27/23, excavation underneath Pleasant Drive was complete, and the roadway was opened for traffic on 6/28/23. Contamination underneath the north and south tracks was removed, and both tracks are fully operational. As of 7/11/23, surface and ground water sampling plans for the remainder of the cleanup have been approved by EPA. In addition, gravel was laid on the turnaround on East Martin Street in preparation for asphalt to help control erosion and dust. A site storm water inspection was conducted, and additional storm water controls were put into place to improve the existing storm water management plan. EPA hosted a site progress information session on 7/20/23 at the First United Presbyterian Church in East Palestine. Activities are ongoing. As of 7/31/23, Norfolk Southern offered help with indoor cleaning for homes and business for those within the one-to-two-mile Ohio-Pennsylvania evacuation zone. As of 3/22/24, the EPA and PA DEP continue to monitor wells in the area.

CLOSED:

MULTIPLE PEOPLE SHOT - Philadelphia County, 7/5/24 - A total of nine victims were shot near the intersection of South 60th Street and Kingsessing Avenue in Philadelphia City last night. There were five adults and four juveniles. All adults were taken to Penn Presbyterian Medical Center where one victim was pronounced dead. All four juveniles were initially taken to different area hospitals but were later taken to Children's Hospital of Philadelphia (CHOP) and all are in stable condition. The shooter is still at large, and the incident is under investigation by the Philadelphia Police Department.

AQUEOUS FILM FORMING FOAM (AFFF) RELEASE - Philadelphia County, 7/5/24 - The fire alarm at the David Michael and Company, a food processing facility, 10801 Decatur Road, Philadelphia, activated for an unknown reason. It caused a release of 1000 gallons of AFFF into the building, as well as a small amount into Walton Run, which flows to the Delaware River. It is unknown if any of the foam reached the river. The release was secured, and clean-up crews responded to the scene.

TRAIN INCIDENT- Lehigh County, 7/5/24 - Four rail cars of a Norfolk Southern freight train derailed under the Hill to Hill Bridge, near the border of Northampton and Lehigh Counties. This is a main line. All of the cars were empty, and no hazmat or injuries were reported.

APARTMENT FIRE- Northampton County, 7/5/24 - Emergency crews responded to an apartment fire in the city of Easton, that was possibly started by fireworks. 18 residents (16 adults and two children) were displaced from five apartments in three separate buildings. They are being assisted by the American Red Cross. Met-Ed responded for a downed power line. Two firefighters were transported to a local hospital for knee injuries.

COMMERCIAL STRUCTURE FIRE- Lancaster County, 7/5/24 – Units responded to a two-alarm fire at Hubbard Feeds in East Hempfield Township, for a fire in a cooler in the basement of the building. This is a SARA Title II facility. Chemicals and animal feed were both involved in the fire.

FOOD TRUCKS AND FIREWORKS/POLICE ACTIVITY - Dauphin County, 7/4/24 - The fireworks show at City Island in Harrisburg City began at approximately 2115 hours and was stopped early when police apprehended four suspects with guns in the area. No shots were fired. The crowd was dispersed. According to reports, police said that there were three juveniles and one male adult detained, with one gun being found on a juvenile. It is believed that one, possibly two guns were thrown into the Susquehanna River. A search was conducted on 7/5/24 of the river by Harrisburg fire and police departments, and one firearm was recovered. The investigation continues.

AIRPLANE CRASH - Clinton County, 7/4/24 - A Cessna 172N flying from Williamsport Regional Airport (IPT) to Piper Memorial Airport (LHV) crashed in a wooded area next to the West Branch Susquehanna River in the area of the 270 block of South Allegheny Street in Woodward Township. The crash site was across the river from Piper Memorial Airport. Rescue personnel have confirmed there was one soul aboard who is deceased. The Federal Aviation Administration and the National Transportation Safety Board are continuing the investigation.

DISASTER DECLARATIONS:

6/7/24 – City of Pittsburgh, Allegheny County has issued a Declaration of Disaster Emergency due to a multi-residential structure fire at the 2nd Avenue Commons Shelter on 6/4/24.

5/27/24 – Mahanoy City Borough issued a Declaration of Disaster due to adverse weather.

5/11/24 - Union Township, Washington County has issued a Declaration of Disaster Emergency due to adverse weather.

4/23/24 - Hopewell Township, Beaver County has issued a Declaration of Disaster Emergency due to adverse weather.

4/18/24 - South Buffalo Township, Armstrong County has issued a Declaration of Disaster Emergency due to adverse weather on 4/11/24 and 4/12/24.

4/11/24 - Canton Township, Washington County has issued a Declaration of Disaster Emergency due to adverse weather.

4/11/24 - Oakdale Borough, Allegheny County has issued a Declaration of Disaster Emergency due to adverse weather.

4/10/24 - Jefferson Township, Greene County has issued a Declaration of Disaster Emergency due to adverse weather.

4/10/24 - Jackson Township, Greene County has issued a Declaration of Disaster Emergency due to adverse weather.

4/10/24 - Perry Township, Greene County has issued a Declaration of Disaster Emergency due to adverse weather.

4/10/24 - Wayne Township, Greene County has issued a Declaration of Disaster Emergency due to adverse weather.

4/10/24 - Center Township, Greene County has issued a Declaration of Disaster Emergency due to adverse weather.

4/9/24 - Aleppo Township, Greene County has issued a Declaration of Disaster Emergency due to adverse weather.

4/8/24 - Washington Township, Greene County has issued a Declaration of Disaster Emergency due to adverse weather.

4/8/24 - Richhill Township, Greene County has issued a Declaration of Disaster Emergency due to adverse weather.

4/5/24 - Gilmore Township, Greene County has issued a Declaration of Disaster Emergency due to adverse weather.

4/4/24 - Nippenose Township, Lycoming County has issued a Declaration of Disaster Emergency due to adverse weather.

4/4/24 - Deemston Borough, Washington County has issued a Declaration of Disaster Emergency due to adverse weather.

4/4/24 - Marianna Borough, Washington County has issued a Declaration of Disaster Emergency due to adverse weather.

4/3/24 - Red Stone Township, Fayette County has issued a Declaration of Disaster Emergency due to adverse weather.

4/3/24 - German Township, Fayette County has issued a Declaration of Disaster Emergency due to adverse weather.

4/3/24 - Brownsville Borough, Fayette County has issued a Declaration of Disaster Emergency due to adverse weather.

4/3/24 - Bentleyville Borough, Washington County has issued a Declaration of Disaster Emergency due to adverse weather.

4/3/24 - Punxsutawney Borough, Jefferson County has issued a Declaration of Disaster Emergency due to adverse weather.

2/13/24 - Millersburg Borough has issued a Declaration of Disaster Emergency due to power outages affecting independent living facilities and apartments on 2/13/24.

9/25/23 - Blawnox Borough, Allegheny County has issued a Declaration of Disaster Emergency due to a water main break and damages to Freeport Road.

9/23/23 - Oxford Borough, Chester County has issued a Continuation of the Declaration of Disaster Emergency due to the multi-building structure fire on 9/13/23.

9/19/23 – Fairchance Borough, Fayette County issued a Declaration of Disaster Emergency due to a dam issue that has caused or threatens to cause injury, damage, and suffering to the persons and property of Fairchance Borough on or about 9/19/23.

9/14/23 – Oxford Borough, Chester County has issued a Declaration of Disaster Emergency due to the multi-building structure fire on 9/13/23.

9/13/23 – Clifford Township, Susquehanna County issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

9/10/23 – Lackawanna County has issued a Declaration of Disaster Emergency due to the severe thunderstorms and flooding of 9/9/23 through 9/10/23.

08/24/23 – Forest Lake Township, Susquehanna County, issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

08/23/23 – New Milford Township, Susquehanna County, issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

08/23/23 – Harford Township, Susquehanna County, issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

08/23/23 – Susquehanna Depot Borough, Susquehanna County, issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

08/18/23 – Rush Township, Susquehanna County, issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

08/18/23 – Susquehanna County issued a Declaration of Disaster Emergency due to adverse weather on 8/18/23.

8/14/23 – Plum Borough, Allegheny County, issued a Declaration of Disaster Emergency due to a house explosion on 8/13/23.

6/16/23 – West Caln Township, Chester County issued a Declaration of Disaster Emergency due to adverse weather and storm damage throughout the township on 6/16/23.

6/12/23 - Governor Josh Shapiro issued a proclamation of disaster emergency for Philadelphia County in response to the I-95 fire and collapse on 6/11/23. The governor's proclamation makes \$7 million of state funds immediately available for the reconstruction of the roadway and authorizes the Pennsylvania Emergency Management Agency, the Department of Transportation, and the Pennsylvania State Police to use all available resources and personnel, as necessary. This proclamation will remain in place for 21 days, unless extended by the Legislature.

9/10/21 - The Honorable Tom Wolf, Governor of the Commonwealth of Pennsylvania, requested a major disaster declaration from the President through the Federal Emergency Management Agency to provide additional support for state, county and municipal governments, and individuals affected by the remnants of Hurricane IDA between 8/31/21 and 9/5/21. The declaration includes Individual Assistance to individuals and households in Bucks, Chester, Delaware, Montgomery, Philadelphia, and York counties, and assistance under the Hazard Mitigation Grant Program in all areas of the Commonwealth. Public Assistance is under review. The President approved the declaration on 9/10/21 under Major

Disaster Declaration FEMA-4618-DR. 9/24/21 – Amendment No. 1 designates Bedford and Northampton counties for Individual Assistance. 10/8/21 – Amendment No. 2 designates Bucks, Chester, and Montgomery counties for Public Assistance (already designated for Individual Assistance). 10/14/21 – Amendment No. 3 designates Bedford, Philadelphia, and York counties for Public Assistance (already designated for Individual Assistance). Plus, Fulton, Huntingdon, Luzerne, and Schuylkill counties for Public Assistance. 10/20/21 – Amendment No. 4 designates Delaware County for Public Assistance (already designated for Individual Assistance), and Dauphin County for Public Assistance.

8/31/21 - The Honorable Tom Wolf, Governor of the Commonwealth of Pennsylvania, signed a statewide Proclamation of Disaster Emergency on 8/31/21 in response to severe weather event Hurricane Ida that impacted the Commonwealth of Pennsylvania causing widespread threats of serious flash and riverine flooding and other adverse impacts throughout the Commonwealth.

3/30/20 - Governor Tom Wolf requested a major disaster declaration from the President through the Federal Emergency Management Agency to provide additional support for state, county and municipal governments and certain nonprofits, as well as individuals who are struggling during the COVID-19 outbreak. The request for a major disaster declaration will provide the same emergency protective measures available under the nationwide emergency proclamation; the following Individual Assistance programs: Disaster Unemployment Assistance, Crisis Counseling, Community Disaster Loans, and the Disaster Supplemental Nutrition Program; and Statewide Hazard Mitigation. The President approved the declaration on 3/30/20 under Major Disaster Declaration FEMA-4506-DR.

11/27/18 – A Major Disaster Declaration was declared on 11/27/18 for severe storms and flooding that occurred 8/10/18 – 8/15/18. Public Assistance (Cat A-G) was approved for Bradford, Columbia, Lackawanna, Lycoming, Montour, Northampton, Schuylkill, Sullivan, Susquehanna, Tioga, and Wyoming counties. In addition, all areas in the Commonwealth of Pennsylvania are eligible for assistance under the Hazard Mitigation Grant Program. The designation is FEMA-4408-DR.

CONTIGUOUS STATE EVENTS OF POTENTIAL INTEREST TO PENNSYLVANIA:

Delaware:	Normal Operations
Maryland:	Normal Operations
New Jersey:	Normal Operations
New York:	Normal Operations
Ohio:	Normal Operations
West Virginia:	Normal Operations

24-Hour Projected Weather Statewide:

National Weather Service, 0430 hours, 7/6/24

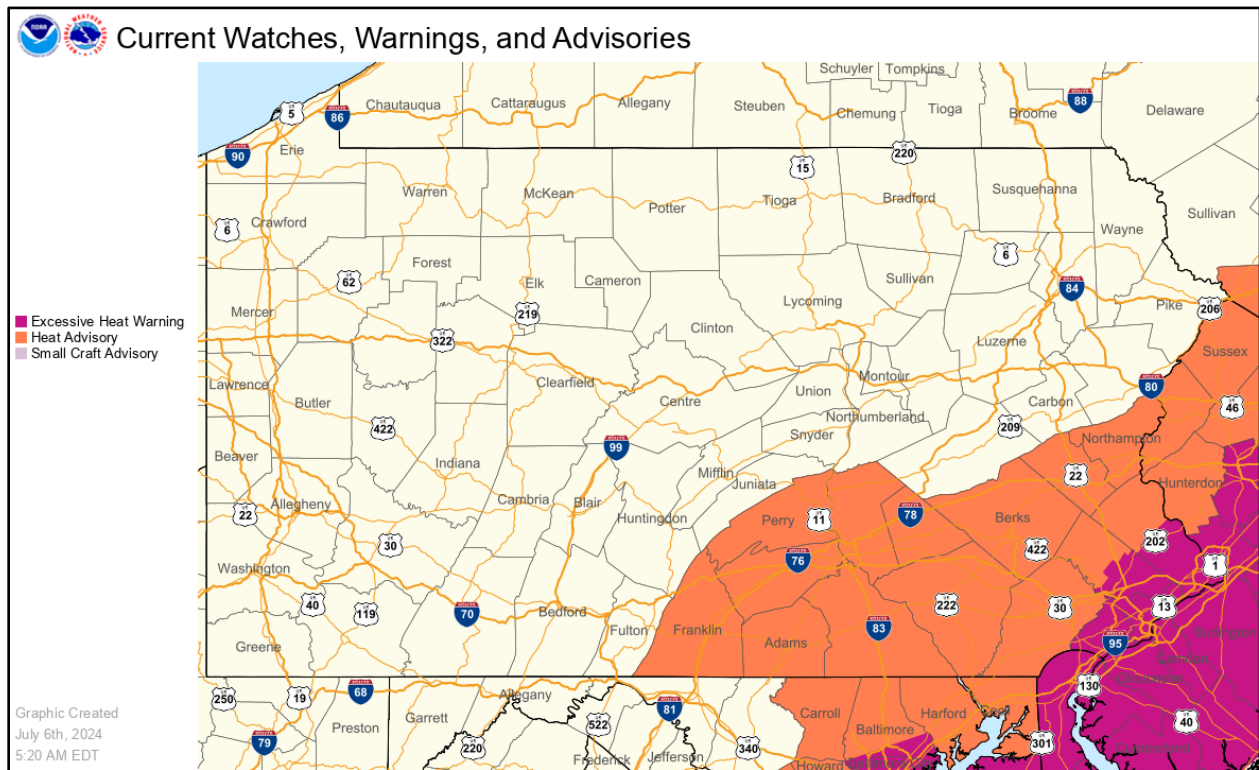

A very warm and humid summertime weather pattern will maintain above average temperatures across the Keystone State through the weekend and into next week. Heat index values will reach the century mark this afternoon in the Lower Susquehanna, Delaware, and Lehigh Valleys. The heat index could also reach triple digits again on Monday and Tuesday afternoon.

A cluster of strong thunderstorms with heavy rain will exit the Poconos early this morning. For the rest of today, expect limited rain chances primarily confined to the southeastern portion of the Commonwealth.

Expect a rain free end to the first weekend of July with slightly lower humidity on Sunday. The odds for rain increase through early next week with rain and thunderstorms most likely on Tuesday afternoon.

WATCHES AND WARNINGS:

Excessive Heat Warning for Bucks, Delaware, Montgomery and Philadelphia Counties until 2000 hours on 7/6/24.
